Summary

Enthusiastic Data Analyst with hands-on experience in data analysis using Python, SQL, Advanced Excel, Power BI, and Tableau. Strong understanding of data cleaning, exploratory data analysis (EDA), and dashboard creation. Familiar with AWS cloud services including EC2, IAM, S3, RDS, and VPC. Quick learner with strong analytical thinking and a passion for turning data into actionable insights.

Education

MIT-ADT University, Pune 2022–2026
B.Tech - Information Technology- Pursuing *Maharashtra, India*

PGPL College, Latur *2019–2021*
Diploma - Information Technology— Percentage: 81% *Maharashtra, India*

SHRI BHAUSAHAIB BIRAJDAR S.V. YELI *March 2019*
SSC 81 % *Maharashtra, India*

Technical Skills

Data Analytics & ML: Python (Pandas, NumPy), Scikit-learn, Basic TensorFlow, Statistical Analysis, Exploratory Data Analysis (EDA), Natural Language Processing (spaCy)
Visualization & GIS: Power BI, Tableau, GeoPandas, QGIS, Google Earth Engine
Databases: MySQL, SQL
Excel & Reporting: Advanced Excel (Pivot Tables, VLOOKUP/XLOOKUP, IF functions, data cleaning,charts)
Cloud & Tools: AWS (EC2, IAM, S3, RDS, and VPC) Git, GitHub, Jupyter Notebook, VS Code
Programming Language: Python, C, C++ and Java,

Soft Skills

Analytical Thinking — Collaborator — Problem Solving — Attention to Detail

Projects

Title: Diabetic Detection
Description: Developed a predictive classification model using patient diagnostic data to identify diabetes risk; performed data cleaning and exploratory data analysis (EDA) with Pandas, built and trained the model using Scikit-learn, and evaluated performance using Accuracy and Recall with a focus on reducing false negatives.

Title: Geo-Tagging Plantation Analysis
Description: Developed a geospatial plantation monitoring system using GPS data, QGIS, and Google Earth Engine; applied machine learning to identify spatial patterns, growth trends, and anomalies such as pest infestation; and integrated IoT sensor data (soil moisture, temperature) with geospatial visualization to support optimized irrigation and fertilizer use.

Certification & Achievements

AWS Academy Graduate – AWS Academy Cloud Foundations, 2025

Advanced Course in Data Science – Technical Guftgu, 2024

National Level Project Competition & Exhibition – Projit, 2024

Test Case Generation with Generative AI – MIT-ADT University, Nov 2024
